Client Approval Packet

Final go/no-go, decisions, launch gates

Legacy | Paquete de Aprobación Cliente

Campaña: Optical Noir

Cliente: Mike / Legacy

Etapas: Client Approval Ops

Objetivo: aprobación final para ejecutar el sprint social de fin de semana sin publicar nada en vivo hasta recibir confirmación.

1. Resumen Ejecutivo

La campaña **Optical Noir** está lista a nivel estratégico, creativo, operativo y de medición para una activación social de fin de semana enfocada en lujo sobrio, energía nocturna de CDMX y una experiencia boutique premium.

El enfoque evita un tono hypey o masivo. La propuesta posiciona a Legacy como una marca de eyewear y sunglasses para compradores con criterio de estilo, interés en accesorios premium y sensibilidad por una compra elevada, personal y giftable.

Importante: no se ha publicado, enviado, pautado ni activado nada en producción. Las acciones en vivo requieren aprobación explícita de Mike/Legacy y acceso operativo confirmado.

2. Qué Está Listo

3. Decisiones Requeridas de Mike / Legacy

4. Aprobación de Estrategia

Propuesta aprobable:

Optical Noir se presenta como una cápsula de eyewear premium para noches en CDMX: lentes con presencia, acabados refinados y una sensación de compra boutique.

Audiencia principal:

Compradores style-conscious en Ciudad de México que buscan lentes premium, sunglasses con personalidad, accesorios giftable y una experiencia de marca elevada.

Mensajes clave:

- Lujo contenido, no ostentoso.
- Diseño para noche, ciudad y presencia personal.
- Boutique feel: atención cuidada, selección curada, compra con intención.
- Producto premium sin depender de claims exagerados.
- Spanish-first con acentos puntuales en inglés solo cuando aporten estilo.

5. Brand & Copy Pack para Aprobación

Líneas de Campaña

Captions Base

CTAs Recomendados

- Agenda tu visita
- Escríbenos por WhatsApp
- Descubre Optical Noir
- Conoce la selección
- Pregunta por disponibilidad

6. CRM Response Scripts

DM Inicial

“Hola. Gracias por escribir a Legacy. Optical Noir es nuestra selección de eyewear premium con una estética sobria, nocturna y muy CDMX. Podemos ayudarte a encontrar el modelo ideal según estilo, uso y ocasión.”

Disponibilidad

“Podemos revisar disponibilidad para ti. Para mantener la experiencia boutique, confirmamos modelos y opciones directamente por mensaje, sin publicar conteos exactos.”

Regalo

“Sí, Optical Noir funciona muy bien como regalo. Podemos orientarte por estilo, forma de rostro y ocasión para elegir una pieza con presencia y uso real.”

Visita / Cita

“Claro. Podemos coordinar una visita para que conozcas la selección con calma. ¿Qué día y horario te acomoda mejor?”

Precio

“Te compartimos la información directamente por mensaje según el modelo de interés. ¿Buscas algo más óptico, sunglasses o una pieza versátil?”

Cierre Suave

“Si quieres, podemos separarte algunas opciones visuales para comparar antes de venir o coordinar la compra.”

7. Channel Calendar & Routing Tasks

8. Measurement Plan

UTMs sugeridos: usar etiquetas por canal, pieza y día.

Ejemplo lógico: campaign=optical_noir, source=instagram, medium=story, content=weekend_launch.

9. QA Report

10. Acciones Bloqueadas en Producción

Estas acciones **no pueden declararse completadas** hasta contar con acceso, conectores o confirmación operativa:

11. Checklist de Aprobación Cliente

Mike / Legacy debe confirmar:

- [] Aprobar estrategia general de Optical Noir.
- [] Aprobar tono Spanish-first, sobrio, premium y nocturno.
- [] Aprobar captions principales.
- [] Aprobar CTAs finales.
- [] Confirmar canales de lanzamiento.
- [] Confirmar horarios de publicación.
- [] Confirmar responsable de publicación manual.
- [] Confirmar responsable de responder DMs/WhatsApp.
- [] Validar disponibilidad comercial sin publicar conteos.
- [] Confirmar links finales para WhatsApp, sitio o agenda.
- [] Autorizar ejecución en vivo.

12. Instrucciones de Lanzamiento

1. Mike/Legacy aprueba este paquete.
2. Legacy confirma links, horarios y responsables.
3. Social team carga piezas manualmente en los canales aprobados.
4. Boutique team responde mensajes usando los scripts CRM.
5. Analytics valida UTMs y registra métricas iniciales.
6. QA revisa posts publicados contra tono, links y claims.
7. El lunes se entrega lectura inicial con aprendizajes y próximos ajustes.

13. Próximos Pasos

14. Handoff Notes al Siguiente Departamento

Para Social / Channel Ops: ejecutar solo después de aprobación explícita. No declarar publicaciones como realizadas antes de verlas en vivo.

Para CRM / Boutique: usar respuestas boutique, evitar presión agresiva y no compartir inventario exacto públicamente.

Para Analytics: medir con datos reales únicamente después de publicar. Separar señales de awareness, intención y conversión.

Para QA: revisar cada publicación en vivo contra tono, links, claims y privacidad comercial.

Para Client Success: pedir aprobación con una respuesta clara: "Aprobado para ejecutar" o lista de cambios específicos.

Strategy & Research Brief

Positioning, audience, guardrails

Legacy | Optical Noir Strategy & Research Brief

Department stage: strategy_research

Client: Legacy

Campaign anchor: Optical Noir

Launch mode: Weekend social launch package, draft/routing only until client approval and connector access are confirmed.

Strategic Summary

Optical Noir should position Legacy as a Spanish-first luxury eyewear brand for CDMX buyers who want confidence without noise: premium frames, boutique service, and a nighttime city mood that feels edited, intimate, and deliberate.

Campaign thesis:

Optical Noir turns eyewear into the final detail before entering the night: refined, precise, and quietly visible.

Recommended strategic line:

“La noche, en foco.”

Supporting tone: restrained, elegant, assured. No hype language, no loud scarcity, no discount-led luxury.

Market & Audience Signals

Priority Audience

Positioning

For style-conscious CDMX buyers who want premium eyewear, sunglasses, and giftable accessories,

Legacy Optical Noir offers a restrained luxury eyewear experience shaped by nighttime city energy, boutique-level attention, and confident visual identity,

unlike loud fashion drops or generic optical retail,

because Legacy can make frames feel like a personal style object, not just a functional purchase.

Proof Points To Use

Use only proof points confirmed by the client or product sheets.

Campaign Pillars

Creative Direction

Strategic Guardrails

Known Constraints & Production Gaps

- No fake live publishing. Until accounts and approvals are confirmed, all social, CRM, and channel outputs must be labeled as **draft**, **routing-ready**, or **client approval pending**.
- Production connector gaps must be explicit before downstream departments claim execution:
- Meta / Instagram access
- TikTok access
- Pinterest access, if used
- WhatsApp Business routing
- Email/SMS CRM platform
- Ecommerce or booking platform
- GA4, Meta Pixel, TikTok Pixel, CAPI, or UTM tracking
- Do not expose exact inventory counts, internal costs, margins, supplier details, tokens, credentials, or unpublished commercial terms.
- Do not make unverified claims about UV protection, prescription availability, designer origin, handmade production, delivery timing, warranty, returns, or same-day pickup.
- All talent, location, UGC, music, and street photography usage must be rights-cleared before publishing.
- Luxury accessibility still matters: captions, alt text, legible contrast, and no text overcrowding on mobile.

Recommended Conversion Architecture

Recommended primary CTA unless ecommerce is fully verified:

“Escríbenos para asesoría.”

Brand Content Pack

Campaign lines, captions, CTAs

Legacy | Optical Noir Brand & Content Pack

Campaign Positioning

Optical Noir presenta a Legacy como una marca de eyewear de lujo discreto para noches en CDMX: precisa, elegante, segura y sin exceso. La campaña debe sentirse como una invitación a entrar a una boutique privada, no como una venta agresiva.

Territorio creativo: lujo contenido, reflejos nocturnos, arquitectura urbana, mirada segura, ritual de elección.

Promesa central: lentes premium que elevan la presencia sin pedir permiso.

Message House

Voice & Tone

- **Primario:** español, elegante, directo, sensorial.
- **Actitud:** segura, editorial, adulta, sin hype.
- **Ritmo:** frases cortas, precisas, con aire.
- **Evitar:** “imperdible”, “trend”, “must-have”, “lujo extremo”, “últimas piezas”, claims de escasez no verificados.
- **Usar:** “presencia”, “mirada”, “nocturno”, “precisión”, “detalle”, “boutique”, “CDMX”.

Caption Options

Hook Library

CTA Rules

Reglas de CTA:

- No usar claims de urgencia si no están aprobados por inventario.

- No publicar “últimas piezas” ni cantidades exactas.
- No mencionar precios, costos, márgenes o proveedores.
- Si la tienda, WhatsApp, CRM o ecommerce no están conectados, usar CTA de descubrimiento o asesoría manual.

Visual Direction

Content Pillars

Channel Copy Starters

Production Notes

- Este paquete no ejecuta publicación en vivo.
- No se validó conexión directa con Meta, TikTok, WhatsApp Business, ecommerce, CRM o DAM en esta etapa.
- Channel Execution debe confirmar accesos, formatos finales, UTMs, horarios y aprobaciones antes de programar.
- Cualquier referencia a disponibilidad debe mantenerse general salvo validación explícita del cliente.
- No incluir inventario exacto, costos, márgenes, datos de proveedor, credenciales ni tokens en piezas o briefings.

Handoff To Channel Execution

Listo para producción de canales:

- Message house aprobado para adaptar a captions, stories, email y WhatsApp.
- Captions base y hooks disponibles para calendarización.
- CTA rules definidas para evitar claims no aprobados.
- Dirección visual lista para briefing de diseño, foto, video y edición.
- Guardrails de confidencialidad y publicación incluidos.

Siguientes acciones recomendadas para Channel Execution:

Channel Execution Calendar

Weekend routing plan

Legacy — 10-Day Instagram / Channel Execution Calendar

Campaign: Optical Noir

Stage: Channel Execution

Market: Mexico City

Language: Spanish-first

Campaign tone: Restrained luxury, nighttime CDMX energy, confident, boutique, not hypey.

Execution Assumptions

- This calendar is prepared for agency/client execution and approval.
- No live publishing is claimed or implied.
- Posting, scheduling, and community management require access to Legacy's approved Instagram, Meta Business Suite, WhatsApp Business, CRM, and asset folders.
- Exact inventory counts, costs, margins, supplier details, credentials, and connector tokens are intentionally excluded.
- Product availability should be phrased as "edición limitada," "selección curada," or "disponible en boutique / por DM," without exposing quantities.

Channel Priorities

- **Primary:** Instagram Feed, Reels, Stories
- **Secondary:** Instagram Highlights, WhatsApp Business, CRM follow-up scripts
- **Support:** Boutique appointment routing, DM response routing, analytics tagging

10-Day Channel Calendar

Recommended Posting Rhythm

- **Feed / Reel:** 1 primary post per day, with stronger pushes on Days 1, 6, 8, and 10.
- **Stories:** Support launch, polls, FAQs, appointment prompts, and warm lead capture.
- **Highlight:** Create or update an **Optical Noir** Highlight after Day 3, then refresh on Day 10.
- **DM / WhatsApp:** Route product, sizing, appointment, and gifting questions to CRM scripts.

Caption Direction

Use Spanish-first captions with restrained luxury language.

Preferred phrases:

- “Óptica nocturna para la ciudad.”
- “Una selección para mirar CDMX con otra intención.”
- “Diseño preciso, presencia discreta.”
- “Agenda una asesoría privada.”
- “Pide una recomendación personalizada por DM.”
- “Optical Noir: una edición curada para la noche.”

Avoid:

- “Últimas piezas” unless approved by inventory.
- “Sold out soon,” “imperdible,” “viral,” or hype-led urgency.
- Claims about materials, origin, lens technology, or exclusivity that have not been verified.
- Mentioning exact stock, costs, margins, suppliers, or operational details.

Asset Checklist

Routing Workflow

Production Connector Gaps

- Instagram publishing access has not been confirmed in this deliverable.
- Meta Business Suite scheduling access has not been confirmed.
- WhatsApp Business automation status has not been confirmed.
- CRM connector availability has not been confirmed.

- Inventory, product catalog, and appointment-booking integrations have not been confirmed.
- Therefore, all publishing and routing should be treated as **manual or draft-stage until client/operator access is verified**.

Handoff Notes To Next Department

To CRM:

Prepare Spanish-first response scripts for DMs, WhatsApp inquiries, gift recommendations, appointment requests, pricing questions, and product-fit guidance. Do not mention exact inventory quantities.

To Analytics:

Track performance by content type: launch reel, product detail, styling, boutique, gifting, FAQ, and closing CTA. Prioritize saves, shares, profile visits, DMs, appointment inquiries, and qualified WhatsApp conversations.

To QA:

Review every caption and asset before posting for brand tone, unsupported claims, sensitive business details, product accuracy, CTA clarity, and visual consistency.

To Client Approval:

Approve the Day 1 launch reel, Day 1 story set, Day 2 product carousel, and CRM routing language before any public posting begins.

CRM / WhatsApp Scripts

Boutique response flows

Legacy CRM / DM / WhatsApp Response Scripts

Campaign: Optical Noir

CRM Objective

Convert inbound interest from Instagram DM, WhatsApp, and boutique inquiries into qualified conversations, styling guidance, appointments, and purchases while preserving Legacy's restrained luxury tone.

No live messages have been sent. These scripts are prepared for manual use or upload into an approved CRM once production connectors are confirmed.

Brand Voice Rules

- Spanish-first, polished, calm, confident.
- Boutique tone: attentive, never pushy.
- Avoid hype language: no "imperdible", "últimas piezas", "corre".
- Do not disclose exact inventory counts, supplier details, margins, costs, credentials, or internal routing notes.
- Use scarcity carefully: "disponibilidad limitada" or "podemos confirmarte disponibilidad".
- Always offer next step: styling help, appointment, purchase link, or delivery confirmation.

Core Message Variables

First Response Scripts

Availability Scripts

Styling Help Scripts

Price Sensitivity Scripts

Shipping / Delivery Scripts

Appointment / Try-On Scripts

Objection Handling

Follow-Up Cadence

Internal Routing Rules

Connector / Production Gaps

- No Instagram DM, WhatsApp Business, Meta Inbox, Shopify, booking, payment, or inventory connector has been confirmed in this stage.
- These scripts are not evidence of live publishing or automated sending.
- Availability must be confirmed through Legacy's approved internal system before any customer-facing commitment.
- Payment, shipping, returns, and appointment policies must be verified by the operating team before deployment.
- Exact inventory counts, supplier data, costs, margins, credentials, and internal tokens must not be included in CRM replies.

Handoff Notes To Analytics

- Track inquiry source: Instagram DM, WhatsApp, organic, referral, boutique, paid social.
- Tag lead intent: optical, sunglasses, gift, appointment, price check, styling help.
- Track conversion steps: first response, recommendation sent, appointment booked, purchase intent, purchase confirmed, follow-up completed.
- Measure response time, appointment booking rate, price objection rate, styling-to-purchase conversion, and unanswered lead recovery.
- QA should review all scripts for policy accuracy before CRM upload or manual distribution.

Measurement Plan

KPIs, UTMs, readout model

Legacy Optical Noir: Analytics & Performance Measurement Plan

Measurement Objective

Measure the weekend social launch of **Optical Noir** across awareness, engagement, lead intent, boutique inquiries, and purchase-adjacent actions without assuming live publishing or automated platform access.

This plan is designed for a fast weekend sprint in Mexico City, with restrained luxury positioning and Spanish-first audience behavior.

Sprint window: Friday, June 5 to Monday, June 8, 2026

Primary market: CDMX

Campaign anchor: Optical Noir

Tone guardrail: elevated, confident, nocturnal, never hype-driven

Tracking Approach

Because production connector access is not confirmed, this plan uses a **manual performance tracker** supported by platform exports, screenshots, CRM notes, and link-level UTM tracking.

Connector Gap Notice

No live publishing, ad account access, Meta/TikTok/Google connectors, storefront integrations, CRM automation, or inventory feeds are assumed.

Until connectors are enabled, performance reporting should be treated as:

- Manually captured
- Screenshot-supported where possible
- Directional, not fully automated
- Excluding exact inventory counts, supplier data, costs, margins, tokens, credentials, or private operational details

Core KPIs

Manual Tracking Sheet Columns

Recommended sheet name: Legacy_Optical_Noir_Weekend_Performance

Use availability bands only, such as available, limited, or consult concierge. Do not list exact stock.

KPI Thresholds

Daily Readout Format

Each readout should be short, executive-ready, and decision-oriented.

Daily Readout Template

Friday, June 5: Launch Baseline

Focus:

- Confirm tracking sheet is active
- Verify UTMs and links
- Capture first reactions from posts/stories
- Identify strongest visual hook
- Flag any broken CTA, typo, or brand mismatch immediately

Decision rules:

- If comments or DMs ask “where to buy,” strengthen CTA in stories and bio.
- If engagement is mostly likes, add styling/gifting prompt.
- If link clicks are low, test more direct Spanish CTA.

Saturday, June 6: First Optimization

Focus:

- Compare asset formats
- Identify best-performing copy angle

- Track DM and WhatsApp quality
- Review story drop-off
- Confirm response script consistency

Decision rules:

- Move stronger creative into prime story slot.
- Repost or adapt asset with strongest saves/shares.
- Add FAQ story if repeat questions appear.
- Route high-intent inquiries to CRM immediately.

Sunday, June 7: Intent Push

Focus:

- Prioritize boutique visit, appointment, gifting, and product-fit intent
- Use social proof only if real and approved
- Push best-performing asset angle
- Monitor fatigue or repeated audience objections

Decision rules:

- If high engagement but low inquiries, add concierge-style close.
- If gift inquiries rise, shift messaging toward elevated gifting.
- If availability questions rise, respond with approved availability bands only.

Monday, June 8: Wrap + Recommendation

Focus:

- Summarize weekend learnings
- Identify winning channel, format, copy angle, and CTA
- Prepare next-week recommendation
- Document unresolved tracking gaps

Decision rules:

- Recommend scale only if quality intent and brand fit are strong.
- Recommend creative refresh if reach is healthy but engagement quality is weak.
- Recommend CRM improvement if inquiries are strong but next-step conversion is soft.

Optimization Decision Matrix

Recommended UTM Structure

Example:

```
?utm_source=instagram&utm_medium=story&utm_campaign=optical_noir_weekend_launch&utm_content=noir_closeup_story_01
```

Reporting Rules

- Do not report exact inventory counts.
- Do not include raw credentials, tokens, supplier details, costs, margins, or private operational data.
- Do not imply live publishing occurred unless platform proof exists.
- Label manually collected data clearly.
- Use screenshots or exports to support weekend summaries.
- Treat paid performance as unavailable unless ad account data is provided.

Weekend Performance Summary Template

Handoff Notes To QA

QA should verify before client approval:

- Tracking sheet columns are complete and usable
- UTMs are formatted consistently
- Links resolve correctly on mobile
- No restricted information is exposed
- Manual data is clearly labeled
- Screenshots/export evidence is stored
- Reporting does not claim unverified publishing or sales performance
- Spanish-first brand tone remains restrained, premium, and CDMX-relevant

Handoff Notes To Client Approval

Client approval should focus on:

- KPI definitions and thresholds
- Manual tracking process
- Reporting cadence
- Optimization decision rules
- Permission to use approved screenshots/exports in final recap
- Confirmation of which channels have actual access versus manual observation only

Launch QA Report

Claims, connector, and client-safety checks

Legacy QA / Compliance Report

Optical Noir Weekend Launch Package

Department: QA Compliance

Next Department: Client Approval

Client: Legacy

Campaign: Optical Noir

Decision: Approved for client review. Hold live publishing until connector/access checks are completed.

1. QA Scope

This QA review covers the launch package for Legacy's Spanish-first luxury eyewear campaign, including:

- Strategy direction
- Brand and copy pack
- CRM response scripts
- Measurement plan
- Channel calendar and routing tasks
- Asset readiness
- Privacy and compliance constraints
- Connector and launch readiness

No live publishing has been performed or claimed.

2. Executive QA Summary

3. Brand Consistency Review

Approved brand direction:

- Spanish-first luxury tone

- Boutique, elevated, restrained language
- Optical Noir as the anchor campaign concept
- Nighttime Mexico City mood without feeling cliché or tourist-facing
- Confident, quiet premium positioning
- No exaggerated hype, urgency, or mass-market sales language

Copy should feel like:

- “Diseñado para miradas con presencia.”
- “Óptica de noche. Siluetas con intención.”
- “Una edición para quienes eligen con calma.”

Copy should avoid:

- “Imperdible”
- “Corre antes de que se acabe”
- “Mega promo”
- “Lujo extremo”
- Excessive emojis
- Overstated scarcity claims
- Exact stock references

4. Spanish Copy QA

Required copy rule before publishing:

All captions, CRM replies, and ad text must be reviewed once in final layout to confirm line breaks, accents, punctuation, and visual balance.

5. Asset Readiness

Asset risk:

The creative direction is launch-ready, but QA cannot approve final deployment until the actual production files and links are validated.

6. Privacy and Commercial Compliance

The launch package must not expose:

- Exact inventory counts
- Product costs
- Margins
- Supplier names or supplier terms
- Internal pricing strategy
- Raw credentials
- API tokens
- CRM exports
- Customer phone numbers, emails, or order history
- Private client notes

CRM and analytics requirements:

- Use only consented customer data.
- Do not upload raw customer lists to ad platforms without approval.
- Do not include PII in UTM parameters.
- Do not reference private purchase history in public or semi-public replies.
- Keep WhatsApp responses professional and non-invasive.

7. Connector and Production Gaps

Compliance note:

No fake live publishing, scheduling, analytics activation, or CRM automation should be represented to the client. These are production dependencies requiring client-side confirmation or connector access.

8. Launch Blockers

9. Approved Conditions for Client Review

The package is approved to move to Client Approval if presented with these conditions:

- This is a launch-ready package, not confirmation of live deployment.
- Publishing remains on hold until client access, final links, assets, and tracking are confirmed.
- Any product availability language must stay general unless the client approves exact wording.
- CRM scripts must be customized only with approved contact details and verified links.
- Final client signoff is required before any paid media or public posting.

10. QA Decision

Decision: Approve for Client Approval

Live Launch Status: Hold

The Legacy Optical Noir package is strategically and creatively consistent with the campaign brief. The Spanish-first luxury positioning is appropriate, the CRM tone is usable, and the measurement/channel structure is directionally sound.

However, live deployment cannot be approved until production connectors, final URLs, tracking, asset exports, and client-side publishing responsibilities are confirmed.

11. Handoff Notes to Client Approval

Please present the package to the client with the following approval points:

- Confirm final campaign name and Spanish copy direction.
- Confirm final product/landing URLs.
- Confirm approved imagery and creative exports.
- Confirm publishing owner for each channel.
- Confirm whether paid media is included in this weekend sprint.
- Confirm CRM contact routing and response owner.
- Confirm analytics access and reporting expectations.
- Obtain explicit approval before scheduling or publishing anything live.

Recommended client approval language:

“Legacy’s Optical Noir launch package is ready for review and approval. Live publishing will begin only after final assets, links, tracking, and channel access are confirmed.”
